**Family Transformation During Divorce and Remarriage** - Margaret Robinson 1990
Divorce, Separation, and Remarriage - Giovanna Gianesini 2016-10-10

Divorce, separation, and remarriage have become a normative part of family life. These changes have led to a diversification of the behaviors, attitudes, and norms concerning marriage and family. To better comprehend these issues, this volume addresses topics including: marital instability step-parenting and extra-marital affairs, among others.

Stepfamily Relationships - Lawrence H. Ganong 2004

This volume focuses on a wide range of behaviors and outcomes in stepfamily relationships, both positive and negative. The authors use the normative-adaptive perspective to seek out and study adaptive, well-functioning stepfamilies and find how they differ from those who struggle to cope. It will be a welcome text and reference for all those who study and work with stepfamilies and families in general.

The Handbook of Adult Clinical Psychology - Alan Carr 2016-03-31

The second edition of the Handbook of Adult Clinical Psychology: An Evidence Based Practice Approach like its predecessor provides clinical psychologists in training with a comprehensive practice handbook to help build the skills necessary to complete a clinical placement in the field of adult mental health. While practical in orientation, the book is based solidly on empirical evidence. Building on the success of the previous edition this handbook has been extensively revised in a number of ways. Throughout the book, the text, references, and website addresses and have been updated to reflect important developments since the publication the first edition. Recent research findings on the epidemiology, aetiology, course, outcome, assessment and treatment of all psychological problems considered in this volume have been incorporated into the text. Account has been taken of changes in the diagnosis and classification of psychological problems reflected in the DSM-5. Chapters on ADHD in adults, emotion focused therapy, radically open dialectical behaviour therapy, and schema therapy have been added. The book is divided into 6 sections: Section 1 covers conceptual frameworks for practice (lifespan development; classification and epidemiology; CBT, psychodynamic, emotion focused, systemic and bio-medical models; and general assessment procedures) Section 2 deals with mood problems (depression, bipolar disorder, suicide risk, and anger management) Section 3 focuses on anxiety problems (social phobia, generalized anxiety disorder, panic disorder, obsessive compulsive disorder, post-traumatic stress disorder and depersonalization disorder) Section 4 deals with psychological problems linked to physical health (health anxiety, somatization, chronic pain, adjustment to cancer, and eating disorders) Section 5 focuses on other significant psychological problems that come to the attention of clinical psychologist in adult mental health services (ADHD in adults, alcohol and other drug problems, psychosis, and psychological problems in older adults) Section 6 contains chapters on therapeutic approaches to psychological distress related to complex childhood trauma (dialectical behaviour therapy for borderline personality disorder, racially open dialectical behaviour for over-controlled presentations, and schema therapy). Each of the chapters on clinical problems explains how to assess and treat the condition in an evidence-based way.
with reference to case material. Interventions from cognitive-behavioural, psychodynamic, interpersonal/systemic and biomedical approaches are described, where there is evidence that they are effective for the problem in question. Skill building exercises and further reading for psychologists and patients are included at the end of each chapter. This book is one of a set of three volumes which cover the lion’s share of the curriculum for clinical psychologists in training in the UK and Ireland. The other two volumes are the Handbook of Child and Adolescent Clinical Psychology, Third Edition (by Alan Carr) and the Handbook of Intellectual Disability and Clinical Psychology Practice, Second Edition edited by Alan Carr, Christine Linehan, Gary O’Reilly, Patricia Noonan Walsh, & John McEvoy).

**Positive Psychology**-Alan Carr 2004 Remediating deficits and managing disabilities has been a central preoccupation for clinical psychologists for much of the last half of the 20th century. Positive psychology, in contrast, is concerned with the enhancement of happiness and well being. This text explores the subject.

**Divorce as Family Transition**-Margaret Robinson 2018-05-30 Based on the 1996 Family Law Act, this book looks at how the therapist can work with the different professions involved in a divorce, how children might be consulted, and ways in which vulnerable family members can be protected.

**Family Therapy**-Alan Carr 2012-10-04 Now in its third edition, this highly regarded and well-established textbook includes up-to-date coverage of recent advances in family therapy practice and reviews of latest research, whilst retaining the popular structure and chapter features of previous editions. Presents a unique, integrative approach to the theory and practice of family therapy Distinctive style addresses family behaviour patterns, family belief systems and narratives, and broader contextual factors in problem formation and resolution Shows how the model can be applied to address issues of childhood and adolescence (e.g. conduct problems, drug abuse) and of adulthood (e.g. marital distress, anxiety, depression) Student-friendly features: chapters begin with a chapter plan and conclude with a summary of key points; theoretical chapters include a glossary of new terms; case studies and further reading suggestions are included throughout

**Divorce**-Shelley Day Sclater 2017-07-05 Several jurisdictions have attempted to render divorce more harmonious by abolishing matrimonial ‘fault’ and facilitating the resolution of divorce disputes by mediation. In Britain, these provisions appear in the Family Law
Act 1996. The book presents a challenge to the underlying assumptions that conflict? and the adversarial system are undesirable. Its focus is on adults' experiences of divorce. In a series of interviews, divorcing people told their own stories of divorce. The personal narratives revealed that divorce can be emotionally traumatic, but it has positive sides too. The emotions of divorce are not pathological?, but are readily explicable as ordinary human coping strategies?, in the context of the real material privations that many divorcing people suffer. These coping strategies often involve conflict and acrimony. From a psychodynamic perspective, it is argued that these are integral, and psychologically necessary, aspects of the divorce process. This book is particularly topical in the light of the recent decision of the British Government to postpone the implementation of the Family Law Act 1996 and the acknowledged need for research to inform policy.

Parenting in Stepfamilies-Gladys Lan Tak Lam-Chan 2018-08-13 First published in 1999, this book contains the findings of an exploratory study using in-depth interviews on parenting and the dynamics of Hong Kong Chinese stepfamilies. The stepfamily is a topic which is in lack of local research in Hong Kong, but is an emerging family structure which has increasing need for professional intervention. This study began as a result of the researcher’s concern about the soaring number of divorces and broken families in Hong Kong and her curiosity to uncover the untold stories of stepfamilies. The literature review, presentation and thematic analysis of the findings of this study will increase the readers knowledge and understanding of stepfamilies in contexts which are different from Western societies. This book unveils the perceptions and life experiences of the stepmothers, social workers and teachers attitudes towards stepfamilies and the parenting behaviours of stepfamilies in Hong Kong. The author has reflectively analyzed the complex interplay between the social attitudes, cultural stereotyping of stepfamilies influenced by Chinese traditional values, aspirations towards marriage and marital relationships, parental expectations and parent-child relationships, ideology and policy issues affecting professional intervention.

Undercurrents of Divorce-Shelley Day Sclater 2019-07-12 Published in 1999. Despite considerable comment about divorce reform and the post-divorce family, in the press and in academia, by professionals and politicians, much has been left unsaid. There are ‘undercurrents’ of divorce which are not visible and are not discussed because they do not fit into the dominant discursive framework for talk about divorce. This book brings these undercurrents to the surface and does two things. It explains how and why aspects of divorce and the lives of those divorcing, have become marginalized in professional and political discussion and it makes visible the practical and legal effects of such exclusion. It argues that there are good policy reasons for this particular socio-legal critique at this time, as the implementation of the Family Law Act 1996 gets underway.

Positive Practice (Psychology Revivals) - Alan Carr 2013-10-02 Originally published in 1995 Positive Practice is for newcomers to the field of family therapy and systemic consultation including professionals from a variety of disciplines, such as psychology, psychiatry,
social work, nursing, child care and protection, occupational therapy, paediatrics and general medical practice. Positive Practice is a step-by-step approach to family therapy written both as a treatment manual and as a training resource. It describes in detail a unique approach to consulting to families with youngsters who have psychological or social problems. It covers the difficulties associated with planning the first consultation, strategies for family assessment and problem formulation, methods for developing a therapeutic contract and goal setting, plans for conducting therapy and troubleshooting resistance, and ways of concluding therapy. It includes many diagrams and checklists and is essentially jargon-free. Practical exercises are given at the end of each chapter, making it an ideal training resource for any introductory course. Special issues discussed include adjunctive individual sessions, convening network meetings, jointly managing statutory and therapeutic responsibilities, ethical decision making, clinical audit and professional development. An integrative formulation model provides a focus for both guiding assessment and planning therapy. The approach to practice described in this book offers clinicians a way to integrate new ideas from the burgeoning literature on family therapy, theory and research into their clinical work.

**Exchanging Voices** - Lynn Hoffman 2018-03-26 For this book, the author has not only compiled her writing for the last ten years, but she has written her own commentary about the personal and intellectual journey which led her from one paper to the next. The papers themselves read like a chronicle of the major ideas of the past ten years, but her commentary sheds a new light on the process of learning. It enables the reader to understand the way one woman has listened to the voices of a changing environment, and listened to the changes in herself in order to expand her thinking and her practice as a therapist.

**The Cultural Adjustment of Asian Lone Mothers Living in London** - Rachana Sinha 2020-10-12 First published in 1998, this insightful volume aims to explore how 90 Indian and African single mothers in 1993 London resolve the dual challenges of single parenthood and their ethnic origins, along with a comparison with their British counterparts. This is one of only a few studies devoted exclusively to Asian lone mothers in Britain and sheds light on the problems encountered by a group largely ignored by researchers to date. Rachana Sinha establishes the impact of differences in family values on issues of marriage, women’s status and lone parenthood and brings to light some of the mothers’ cultural and psychological adjustments to these values and life in London. The women’s experiences of lone parenthood are shown through their relationships with the father, their family and friends and with contacts with social organizations. Sinha ends the study with suggestions and implications for social policy drawn from her findings.

**Competence in Social Work Practice** - Kieran O’Hagan 2007-07-15 Since the publication of the first edition of this classic text, the...
major reforms in social work education resulted in the National Occupational Standards Framework (NOSF), which requires all social workers to demonstrate competence in a number of key areas. This practical text book covers all areas of the NOSF including social work ethics, residential care practice, child protection, risk analysis and protecting adults with learning difficulties. Numerous case studies effectively convey competent practice in social work practice, and relate core areas of competence explicitly to the relevant section of the framework. Professionals and students involved in social work training, as well as new practitioners will value this book as an indispensable resource.

Psychoanalytic and Psychotherapeutic Perspectives on Stepfamilies and Stepparenting - Prophecy Coles 2017-11-01
Psychoanalytic and Psychotherapeutic Perspectives on Step-families and Step-parenting looks at the role step-parents can play in the psychic development of children. Step-parenting requires enormous confidence and resilience that stretches into a territory of human emotions and conflict that can make marriage seem easy. Prophecy Coles’ concern has been that we are witnessing a new kinship system and our psychological thinking has not kept up with the emotional effect that stepparents are having upon the next generation. The author traces the history of our beliefs about stepparents through the oral tradition of the fairy story into our present, arguably prejudiced beliefs about them. Coles explores whether our feelings about stepparents arise from the unconscious tradition that placed stepparents in hostile opposition to the natural forces of parenting. The absence of detailed clinical work on the subject has meant that the author has drawn on interviews, biography and three long term research projects to think about this new family constellation. Covering such topics as the prevalence and importance of step-mothers historically, the reasons for psychoanalytic neglect of this subject, and using clinical material drawn from work with step-mothers, children and fathers, this is a much-needed guide to working with families affected by maternal loss and alternative parenting roles. It will encourage a further appreciation of the psychological difficulties that stepparents face, and at the same time offer a re-appraisal of the pain that young children go through when their parents decide to separate. Psychoanalytic and Psychotherapeutic Perspectives on Step-families and Step-parenting will appeal greatly to psychoanalysts and psychoanalytic psychotherapists.

The authors present a thorough exploration of why some remarriages and stepfamilies function well, while others do not. Beginning with a brief historical and clinical overview, the authors examine factors and issues that either contribute to, or hinder the development of, close relationships in remarried families. Chapters include discussions on all of the relationship combinations found in stepfamilies, child abuse in stepfamilies, extended family relationships, and a review of various clinical perspectives that provide insight into well-functioning as well as dysfunctional stepfamilies.

Gray Divorce—Jocelyn Crowley 2018-01-23 After twenty, thirty, or even forty years of marriage, countless vacations together, raising well-adjusted children, and sharing property and finances—what could go wrong? Gray Divorce offers a provocative look at the growing rate of marital splits after the age of 50, showcasing the voices of men and women who are considering, going through, or have undergone one. With empathy and insight, Jocelyn Crowley, who has written widely on family issues, uncovers the reasons for why men and women divorce—and the penalties and benefits that each pay for their choice. From the outside, many may ask why couples in mid-life and readying for retirement choose to make a drastic change in their marital status. Yet nearly 1 out of every 4 divorces is “gray.” Crowley sheds light on why divorce occurs—seeing marriage in a different lens, understanding the seismic shift in individual priorities, and the impact of the increase in life expectancy. With a deft eye, she analyzes the experiences of women and men as they go through
this life transition—specifically how women are affected economically while men are affected socially. With a realistic yet passionate voice, Crowley shares the personal positive outlooks and the necessary supportive public policies that must take place to best help new divorcees. Engaging and instructive, Gray Divorce is a must-read for anyone interested in contemporary American culture.

**Gender, Power and Relationships** - Charlotte Burck 2006-11-22 Gender, Power and Relationships is a follow-up volume to Gender and Power in Families (Routledge 1989) which marked a milestone in the application of feminist thinking to therapeutic work with families, bringing new ideas to students, trainers and professionals. Contributions from leading practitioners demonstrate how feminist ideas have been taken up by therapists in a variety of different settings. The chapters explore and extend previous debates on sexual and physical abuse and ethnicity, addressing the many contradictions and dilemmas inherent in this work for feminist systemic approaches. They also consider changing family structures and the role of men within them, gendered aspects of HIV prevention, and work with women drug addicts, and a variety of other approaches each set in the context of an overview of feminist theories of the family.

**Wealth and Poverty** - George Gilder 2012-07-31 Hailed as “the guide to capitalism,” the New York Times bestseller Wealth and Poverty by George F. Gilder is one of the most famous economic books of all time and has sold more than one million copies since its first release. In this influential classic, Gilder explains and makes the case for supply-side economics, proves the moral superiority of free-market capitalism, and shows why supply-side economics are more effective at decreasing poverty than government-regulated markets. Now, in this new and completely updated edition of Wealth and Poverty, Gilder compares America’s current economic challenges with her past economic problems—particularly those of the late 1970s—and explains why Obama’s big-government, redistributive policies are doing more harm than good for the poor. Making the case that supply-side economics and free market policies are—and always will be—the answer to decreasing America’s poverty rate and increasing her prosperity, Wealth & Poverty offers solutions to America’s current economic problems and hope to those who fear that our best days are behind us.
